Addition (sums 50 or less)

It is birthday time! Leo and Maya receive a lot of presents and it is time to unwrap them.

1. There are two stacks of gifts for Leo and Maya. There are 14 gifts in one stack and 19 in another stack. How many gifts in total are there?
2. Leo unwrapped two boxes of building blocks. There are 22 blocks in each of the boxes. How many building blocks are there in total?
3. Leo receives a set of toy action figures. It comes with 15 action figures. He already had 11 of them. How many action figures does he have now?
